

## Pre-Appointment Checklist

Help us make the most of your visit! Please complete the following items before your appointment.

1. Cerumen (Ear Wax) Removal

The presence of ear wax impedes our ability to conduct audiological testing. We know your time is valuable, so stop by one of our 4 locations or visit your family doctor before your appointment to ensure you're wax free.

2. Case History Form

We treat our patients like family, so naturally, we want to get to know you. Please complete your Case History form and bring it to your appointment. This will save you the hassle of finding the correct information during your visit.

3. Find a Companion

We believe that you'll get more out of your visit if a loved one can share the experience with you. Our hearing care professionals will also benefit from learning about your hearing abilities from someone close to you.

4. Alberta Aids to Daily Living (AADL) Form

If you are not registered with AADL and are over the age of 65, please complete the AADL form and bring it to your appointment to qualify for government assistance. If you have any questions, give us a call - we're happy to help!

5. Check Your Benefits

Hearing devices may be recommended as part of your treatment. We understand that hearing technology can be an expensive investment, so take a moment to review your benefits to see if you qualify for coverage.

Welcome to the Bow River Hearing family! We look forward to your visit!
